

IBID PRESS

BUSINESS & MANAGEMENT ECONOMICS PSYCHOLOGY HISTORY

Business & Management: This book is a dedicated text for the IB Standard Level and Higher Level courses in Business and Management (first exam in 2009).

Economics: This book covers the entire two year diploma programme for Standard Level and Higher Level. It contains extensive examples referenced in over 1200 footnotes, and intentionally goes beyond the core areas to provide students with greater depth and coverage of economic theory and applications. The second edition is presented in a larger page size, with enhanced page layout.

Psychology: This textbook has been written by a team of psychologists and teachers and in conjunction with the IB consultants, Di Codrington and Elaine Shone to support the IB Diploma Programme Psychology course. With frequent references to key studies to underpin explanations, the text is arranged to fit the syllabus and covers all aspects of both the Standard and Higher levels, apart from the HL topic The Humanistic Perspective and Options 1 and 2.

History: Through a wealth of primary and secondary source material, this account of the origins of the First World War allows the reader to gain an in-depth understanding of one of the most complex topics in the IB History syllabus.
